I'm a fifth-year Software Engineering student at Addis Ababa Science and Technology University with a strong interest in full-stack development. I have solid experience building RESTful APIs using Django and enjoy creating user-friendly frontends with React, HTML, CSS, and JavaScript. I also develop mobile apps using Flutter. On top of that, I'm an active competitive programmer with A2SV (Africa to Silicon Valley), where I'm constantly improving my problem-solving skills. I'm passionate about learning, building real-world applications, and growing as a developer.

## 🎓 Education

**Bachelor of Technology in Software Engineering**, Addis Ababa Science and Technology University, Ethiopia, <https://www.aastu.edu.et/>    Addis Ababa, Ethiopia

## 🧠 Skills

### Programming Languages

Python, dart, C++, Java, JavaScript

### Databases

MySQL, PostgreSQL, mongodb
